

Wall glass photovoltaic panels

What is a photovoltaic solar panel?

Photovoltaics, more commonly known as solar panels, are one of the purest and most reliable methods for producing renewable energy. Each panel is composed of photovoltaic cells, which activate when exposed to the sun, absorbing its rays and converting them into clean electricity.

Does Onyx Solar offer Photovoltaic Glass?

At Onyx Solar we provide tailor-made photovoltaic glass in terms of size, shape, transparency, and color for any building's design. We offer a wide range of building integrated photovoltaic glass solutions that include, but are not limited to:

Where can Photovoltaic Glass be used?

Our photovoltaic glass has already been installed in a wide variety of buildings in more than 350 projects worldwide. Buildings such as corporate offices, hotels, skyscrapers, airports, railway stations, government buildings, museums, and even historic buildings can benefit from our photovoltaic glass solutions. Dubai Frame United Arab Emirates

Can Photovoltaic Glass panes replace conventional glass?

Thus the photovoltaic glass panes could be installed replacing conventional glass on building facades, curtain walls, atriums, canopies and terrace floors, among other architectural applications.

Who can benefit from Integrated Photovoltaic Glass Solutions?

World-leading companies such as Apple, Novartis, Samsung, and Coca-Cola along with other international institutions such as the Government of Canada, the Helsen Bergen Hospital, or the National Petroleum Technology Center in Saudi Arabia, already benefit from our integrated photovoltaic glass solutions.

Which companies have adopted Photovoltaic Glass?

World's leading companies and institutions such as Apple Inc, Novartis Pharmaceuticals, Samsung, Coca-Cola, Heineken, Pfizer, G.W University to name a few, have led the adoption of photovoltaic glass within their industries.

Solar panels for facades & ventilated PV systems. Solar panels can be used as solar facade cladding solution that fits both new facades (for integration) and existing facades for renovation or update of facade, turning it to energy ...

Onyx Solar is the global leading manufacturer of photovoltaic glass for buildings. The company is based in Vila, Spain, and has offices in the United States and China. Since 2009, we have completed more than 350 projects in 50 ...

Wall glass photovoltaic panels

Solstex panels deliver significantly more energy than other PV panels, at up to 17.6 W/sq. ft. Solstex panels have been independently tested and certified to provide reliable performance that exceeds IEC standards in high temperature, ...

At Onyx Solar we provide tailor-made photovoltaic glass in terms of size, shape, transparency, and color for any building's design. We offer a wide range of building integrated photovoltaic glass solutions that include, but are not limited to:
