

## What are the metal components of photovoltaic panels

Figure 1. The basic building blocks for PV systems include cells, modules, and arrays. Image courtesy of Springer . The term "photovoltaic" is a combination of the Greek word "phos," meaning "light," and "voltage," which is ...

Solar cells are the main components of a solar panel. Also known as photovoltaic (PV) cells, they are made up of a semiconducting material, often silicon. They do not trigger chemical reactions like batteries and do not require fuel to create ...
