

# What lockers can be opened

How do you open a locker?

**Open lock:** Turn the operation knob clockwise 180°; to the open position. The indicator in the window will turn from red to green. **Secure belongings:** Put all your valuables in the locker and close the door. **All done:** Scrambled the fixed combination and now your belongings are secure.

How do you open a combination lock on a locker?

Lockers can be frustrating to open. Here are some helpful tips on how to open a combination lock on a locker. Remember that the way to open a locker is the opposite of the way you look to safely cross the street: right-left-right. To unlock a locker, you will turn the lock clockwise - then counterclockwise - then clockwise again.

Do you need a key to open a locker room?

**Key locks:** These locks require a key to open, which can be assigned to individual employees. Key locks can be effective if you want to ensure that only certain employees have access to certain lockers. However, if a key is lost or stolen, it may be necessary to re-key all of the locks in the locker room.

How do I reopen a locker?

**Find an available locker:** Use the operation knob to open the locker door and put your belongings away. **Scramble:** After locking your restable combination lock scramble the (4) dials to secure your belonging and keep the lock closed. **Reopening the lock:** Use the same unique (4) dial combination to reopen the lock and retrieve your belongings.

How do you open a school locker?

See Step 1 to begin learning how to open 99% of all standard school lockers. (Note: some locks may open differently) Spin the dial at least three times to the right (clockwise), all the way around. This clears the lock of any previous numbers. If at any point in putting in your combination you mess up, do this again to start over.

Should a locker swing open?

Your locker should swing open. Built-in locks are sleek, often offering both combination and keyed methods: **Introducing the Built-In Dial:** Unlike an external lock, this dial is a part of the locker itself but operates similarly. **Unlocking Sequence:** Use the same steps as above for a traditional locker combination. The key difference?

Lockers can be found in high schools, gyms, airports, and many other locations throughout the world. Wherever the need exists to store items securely by many people, lockers are present. Lockers allow for quick, easy, and secure storage ...
