

# Where do the photovoltaic panels connect to

Here's a step-by-step overview of how home solar power works: When sunlight hits a solar panel, an electric charge is created through the photovoltaic effect or PV effect (more on that below); The solar panel feeds this electric charge into ...

Solar panels do not always come with the solar connector attached. Attaching a solar panel connector to a PV wire is a two-step process: (1) crimping and (2) tightening the connector, to do this you require a wire stripper, crimping tool, ...
