

Where is the headquarters of Canadian Solar PV panels located

Where is Canadian Solar based?

GUELPH, ON, June 15, 2023 /PRNewswire/-- Canadian Solar Inc. (the "Company" or "Canadian Solar") (NASDAQ: CSIQ), headquartered in Guelph, Ontario, today announced that it is establishing a solar PV module production facility in Mesquite, Texas.

Where are Canadian Solar solar modules made?

For more details, visit our website. Canadian Solar is one of the largest manufacturers of solar modules worldwide. The company is headquartered in Guelph, Ontario, although most of its photovoltaic module manufacturing facilities are located in China.

Is Canadian Solar a good solar company?

Canadian Solar is one of the 5 biggest solar panel manufacturers in the world, with 20 years in business, and SolarReviews has named the company the fifth-best solar manufacturer of 2024. The company's residential solar panel lines are HiKu, HiKuBlack, and HiKu6, giving homeowners options in terms of performance and price.

How many employees does Canadian Solar have?

The more than 13,000 dedicated employees of Canadian Solar (NASDAQ: CSIQ) strive each day to make this vision a reality. The company's two main lines of business are: (i) PV components; and (ii) the development, construction and sale of solar PV projects, working with both build-to-sell and build-to-hold business models.

Is Canadian Solar a vertically integrated company?

The company is partially vertically integrated, meaning they not only make solar panels (also called 'modules'), but also produce some of the raw silicon ingots, wafers, and solar cells that go into those panels. Here's a video of SolarReviews CEO Andy Sedy discussing his thoughts on Canadian Solar:

When did Canadian Solar go public?

With the company's acquisition of Recurrent Energy, Canadian Solar's total project pipeline reached 20.4 GW, including an increase in the late-stage project pipeline to 2.4 GW. In November 2006, the company went public (Nasdaq: CSIQ) at \$15 per share.
