

Which company produces photovoltaic inverters

Which inverter vendors dominated the global photovoltaic market in 2022?

Huawei and Sungrow remained market leaders in 2022, as they have done since 2015, while AISWEI and SOFAR entered the top 10 ranking. The top 10 global photovoltaic (PV) inverter vendors accounted for 86% of the market - an increase of 4% year-over-year, whereas the top 3 players captured 60% of the market share for shipments in 2022.

Who makes ultra solar inverters?

As a power electronics conglomerate from Spain, Power Electronics brings over 30 years of industrial process innovation to crafting premium solar inverters. Their ULTRA line offers extensive customization for large-scale solar and storage integration, simplifying end-to-end system design.

Who makes the best solar inverter?

Building on almost a century of power electronics expertise, Italy's Fimer has quickly become a leading global provider of solar inverters. Their comprehensive portfolio includes string, central, and large-scale inverters integrating storage and smart grid capabilities.

How PVBL ranked the top 20 global photovoltaic inverter brands in 2023?

On the first day of the conference, PVBL's annual ranking of the Top 20 Global Photovoltaic Inverter Brands was announced. Preferential policies promoted the inverter market growth in 2023. Most of the major inverter companies won a large amount of orders and expanded their capacity with high shipment volume.

Who is the best solar inverter supplier in China?

For top value from an agile Chinese producer, TOSUNluxis is a leader. As a major solar inverter supplier from China, Sungrow offers industry-leading central and string PV inverters tailored for large and small-scale solar installations. Their extensive R&D and vertical integration enable optimization of cost, efficiency, and reliability.

Where did PV inverter shipments grow in 2022?

Strong growth in the PV markets in Europe, Asia Pacific and the United States drove the 333 gigawatts alternating current (GWac) of inverter shipments in 2022. Government support has increased across these regions in a bid to meet clean energy goals. Europe held 28% of the global market for PV inverter shipments in 2022.

SolarEdge is a global leader in innovative energy technology, providing intelligent inverter solutions that maximize power generation while lowering the cost of energy the PV system produces. Established in 2006, SolarEdge developed ...
