

Why are Longi photovoltaic panels selling well

Are LONGi Solar panels worth the investment?

LONGi Solar is a global provider of solar panels. With costs that fall below the industry average and panel efficiency high enough for the average consumer, LONGi solar panels are worth the investment. Our rating: 3.6 Best for: Affordability Average cost: \$2.40 to \$2.67 per watt

How many solar panels does Longi produce a year?

Their annual production capacity is reported to be 105GW for silicon wafers and 60GW for solar panels Q2 2022. LONGi owns most steps in the vertical supply chain to produce a solar panel including producing ingots, silicon wafers and solar cells.

What makes LONGi Solar so successful?

Their success is stemmed from a desire to provide high efficiency, value-based, affordable solar panels. Back in 2007 Longi purchased Lerrri Solar, one of their main competitors. Back in 2017, it was then announced that Lerrri Solar were rebranding to Longi Solar giving them a leading position in the solar market.

Who makes LONGi Solar panels?

LONGi solar panels are made by a wholly-owned subsidiary of the Chinese company, LONGi Group, LONGi Solar.

Are LONGi Solar panels a good choice in Australia?

Longi has its eye on the Aussie commercial solar market: Recently back in April, Longi launched its 370W Hi-MO4 with its eye on the commercial solar market in Australia. To be fair, these are some really good performing solar panels. Back in August we also saw Longi's HiMOX series released in Melbourne.

What types of solar panels does Longi offer?

LONGi has two main series of solar panels: Hi-MO 4, and Hi-MO 5, which have a variety of different options to suit residential, commercial and utility-scale projects. The Hi-MO 4 series uses gallium-doped silicon cells which improves the solar panels resistance to LID.

Longi solar panels are extremely well priced. I would go as far as saying, this is their main selling point. They are able to offer a high quality product for an affordable price. This is how they are better than other solar ...

LONGi delivers great value, offering solar panels at prices below the industry standard. With an average cost of \$2.40 to \$2.67 per watt (compared to the industry average of \$2.82), LONGi provides an affordable solution for solar ...
