

Wind turbine industry analysis

How is the wind turbine market research report segmented?

The Wind Turbine Market Research Report is Segmented by Location of Deployment (Onshore and Offshore), Capacity (Small, Medium, and Large), and Geography (North America, Europe, Asia-Pacific, South America, and Middle East and Africa).

What is the global wind turbine market size?

Wind turbine market is projected to reach \$98.4 billion by 2030, growing at a CAGR of 6.3% from 2021 to 2030. Asia-Pacific dominated the global wind turbines market in 2020, and is projected to remain the fastest growing segment during the forecast period.

What is the driving factor of wind turbine market?

However, rise in sustainable energy demand led to increase in demand for wind power, which, in turn, increases the demand for wind turbine, acting as the major driving factor for the market. The wind turbine market is segmented on the basis of axis type, installation, component, application, and region.

How big is the wind turbine market in 2023?

Wind Turbine Market size valued at USD 141.4 million in 2023 and is projected to expand at more than 8.2% CAGR from 2024 to 2032, driven by continuous restructuring and refurbishment of existing infrastructure. The industry demand is primarily fueled by a positive inclination toward sustainable energy development.

What is the global wind power market size?

The global wind power market size was valued at USD 99.28 billion in 2021 and is expected to expand at a compounded annual growth rate (CAGR) of 6.5% from 2022 to 2030. The growing need to replace conventional sources of energy with renewable sources is projected to drive the market for wind power in the upcoming years.

What is the distributed wind market report?

This report primarily focuses on land-based, utility-scale wind turbines over 100 kilowatts. The Distributed Wind Market Report: 2023 Edition provides statistics and analysis of U.S. distributed wind energy for 2003-2022.

Wind Turbine Market Research, 2033. The global wind turbine market was valued at \$63.4 billion in 2023, and is projected to reach \$115.2 billion by 2033, growing at a CAGR of 6.2% from 2024 to 2033. Market Introduction and Definition. ...

The wind turbine industry covers 20 countries. The research includes a segment analysis of each country in terms of value for the projected period. ... Key market players in the wind turbine market analysis ENERCON Global GmbH, ...

Wind Power Market Size & Share Analysis - Growth Trends & Forecasts (2024 - 2029) ... Global Wind Power Industry Segmentation Wind power is generated by the force of the wind, mainly through the rotor, which transforms kinetic energy ...
