Who makes Fimer solar inverters?

FIMER is a well established Italianbased inverter manufacturer that took over ABB's solar division in early 2020. The company is in the process of revamping many of the ABB style inverters and is expanding its range of high-quality string solar inverters for residential,commercial and utility-scale applications.

Which solar inverter should I Choose?

The solar inverter you choose will need to be compatible solar system type you are installing: Grid-tied inverters are meant for grid-tied solar systems, the most common system type. They manage a two-way relationship with the grid, exporting solar power to it, and importing utility power from it as required.

Are solar inverters expensive?

They're good at dealing with shade (like power optimizers), and have the additional advantage of making your solar system easy to expand. They are, however, the most expensive type of inverter. Learn more: Inverter types compared The solar inverter you choose will need to be compatible solar system type you are installing:
