

# Yida Photovoltaic Inverter Instructions

How do I connect a RS485 inverter to a SolarEdge Monitoring Platform?

For inverters with a DC Safety Unit, connect the grounding wire to the grounding bus-bar in the DC Safety Unit. 1. Designate a single inverter as the connection point between the RS485 bus and the SolarEdge monitoring platform. This inverter will serve as the master inverter.

How do I connect my inverter to a photovoltaic panel?

The electrical power and signals wiring from the inverter to the AC Grid and to the photovoltaic panel are connected through the Switch Boxes described in Fig.11 SB-01 - "DC Switch Box Layout" -using the access windows in pos "A" for the power cables and the windows in pos "D" for the signal cables.

Where should a solar inverter be installed?

When deciding on the installation location for your solar inverter, several factors must be considered. Ideally, the inverter should be installed indoors, near a sub-board for houses or the main switchboard for businesses.

Does Yotta DPI increase PV panel voltage?

Yotta DPI connects PV modules are connected in parallel which does not increase the PV panel voltage. DC voltages in the system never exceeds PV panel Voc, which is typically lower than 60Vdc. This low voltage is considered "safe to touch"... 3.

How do I connect my SolarEdge inverter?

For proper sealing, first tighten the corner screws and then the two central screws (see also Figure 26). 2. If not already ON - Turn ON the AC to the inverter by turning ON the circuit breaker on the main distribution panel and turning on the Safety Switch. 3. Wait for the inverter to connect to the SolarEdge monitoring platform.

How many inverters can a photovoltaic system handle?

The AURORA is capable of handling 2 separate arrays. If the output of photovoltaic system exceeds the capacity of a single inverter, additional Aurora inverters can be added to the system; each inverter will be connected to an adequate section of the photovoltaic field on the DC side and to the grid on the AC side.
