

Yingli Solar Photovoltaic Panels

Are Yingli solar panels good for ground-mount solar projects?

The modules offer an equally impressive module efficiency stretching up to 21.57% for the YLM 132 Cell (G12) model which uses the same cell technology as the Mono Series. These panels would be better suited to ground-mount solar projects. Yingli's latest solar panel to drop in Australia in early 2024 is the Panda 3.0 Pro.

Who manufactures Yingli solar panels?

Yingli is one of the world's largest solar panel manufacturers (NYSE:YGE), and at its peak has been the largest panel supplier. The company produces over 4 GW of solar panels every year. It has grown rapidly over the years and has shipped more than 24 GW of panels to over 100 countries.

What are Yingli bifacial solar modules?

Yingli's premium, bifacial modules are named Panda. Their most important feature is the N-type solar cells. Unlike regular, P-type modules, N-type modules experience lower losses due to Light Induced Degradation (LID). In other words, the N-type modules have even better energy output, especially in the mornings and evenings.

What types of solar panels does Yingli Solar offer?

Yingli Solar now offers only monocrystalline, half-cell solar panels. In the past, the company provided full, polycrystalline modules. Here's an overview of the panels Yingli Solar offers:

How temperature-tolerant are Yingli solar panels?

Yingli solar panels have temperature coefficients of -0.34 to -0.37 %/ $^{\circ}\text{C}$. While this is decent, most modern solar modules have temperature coefficients between 0.3 and 0.7 %/ $^{\circ}\text{C}$. However, as a vertically integrated company, Yingli manufactures everything from ingots and wafers to cells and modules, allowing it to have better control over product quality.

What is Yingli Green Energy?

Yingli Green Energy is a module manufacturing company founded in Baoding, China, in 1998. It is one of the world's largest solar panel manufacturers and has been the largest panel supplier at its peak. Yingli Green Energy is a publicly-traded company (NYSE:YGE) and has shipped more than 24 GW of panels to over 100 countries.
